

DOL Project Continues in Kansas and Missouri

This past year HR Systems worked with a number of Nebraska and Iowa companies implementing the Flex Options Program. Seventeen Omaha and Lincoln companies and 18 Iowa companies participated in its implementation.

HR Systems will now coordinate the implementation of the Program with Kansas and Missouri employers. June Wayne of Wayne Enterprises (dba HR Systems) will hold seminars in the Kansas City area during the months of March and April. More details on those will be

announced soon.

Flex Options is available for employers to learn about alternative work practices, which include: flex time, part time work schedules, compressed work weeks, and many others. The value of these programs is evident through better recruitment and retention of employees.

There is no cost to the employer for the implementation of the Flex Options Program.
